85

## In the BENELUX-countries, approximately how many people die each year because they were exposed to cancer causing agents at work?

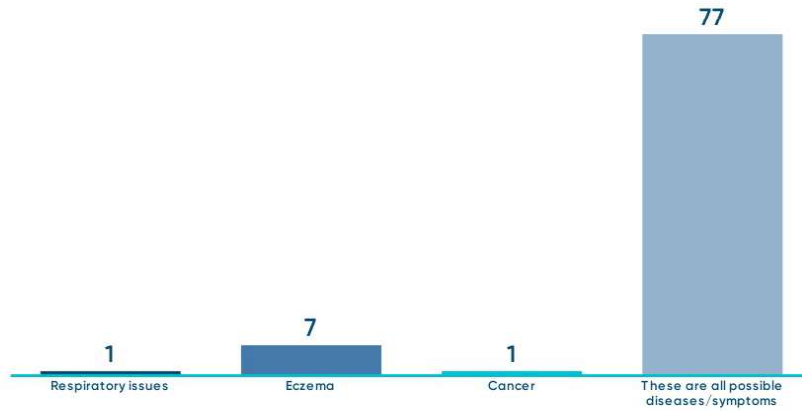

84

## What does STOP stand for?

85

Which one of the diseases/symptoms below is NOT a possible symptom of being exposed to hazardous substances

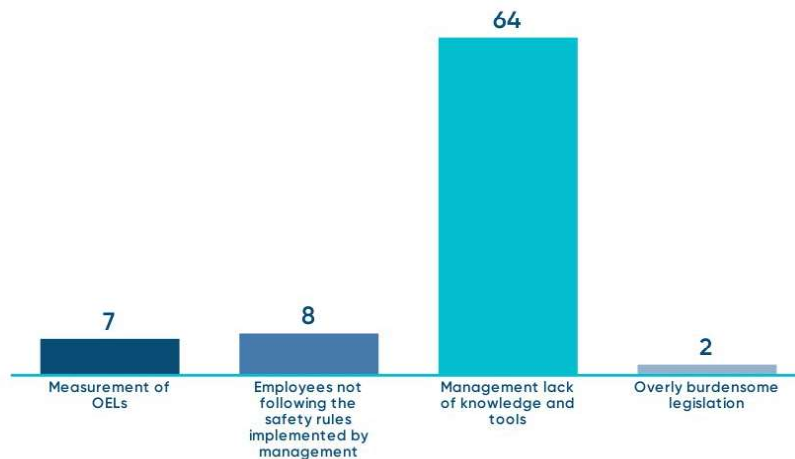

86

# ROADMAP ON CARCINOGENS

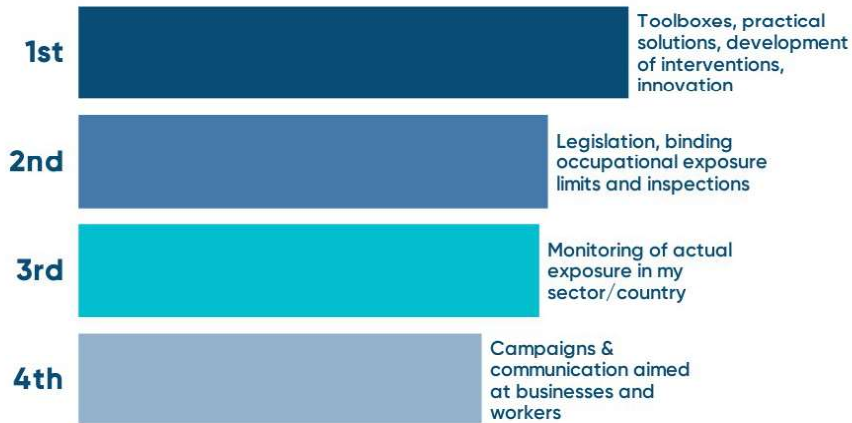

11

What is the main obstacle faced by companies on the shop floor to successfully tackle workers exposure to carcinogens?

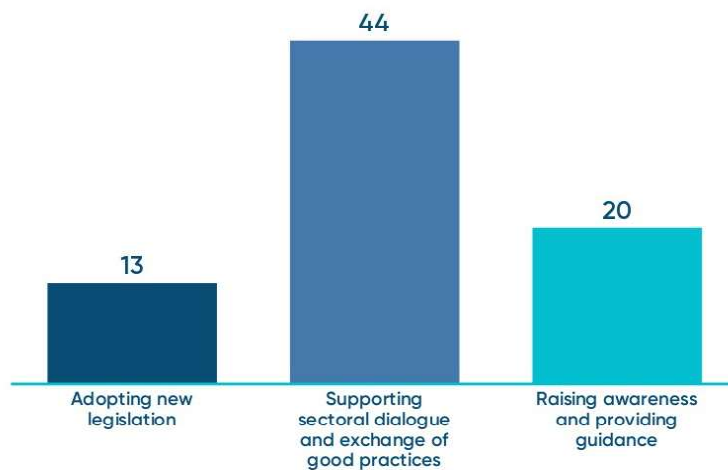

81

## Please prioritize the following interventions 1: first priority to 4: least important

75

## How can EU institutions best help Member States and social partners to create a high level of protection for workers' health and safety?

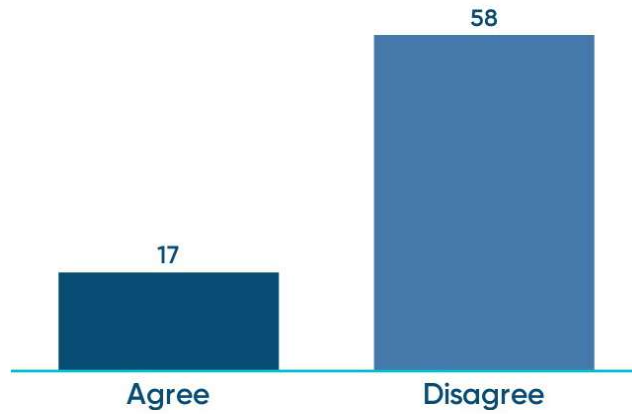

77

ROADMAP  
ON CARCINOGENS

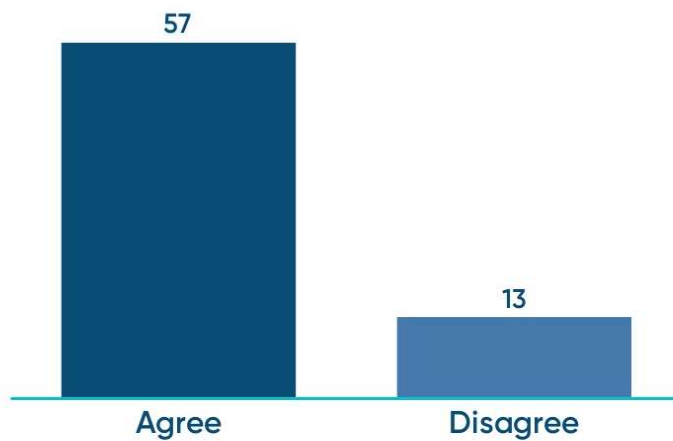

The majority of companies know about the STOP principle when it comes to working with hazardous substances.

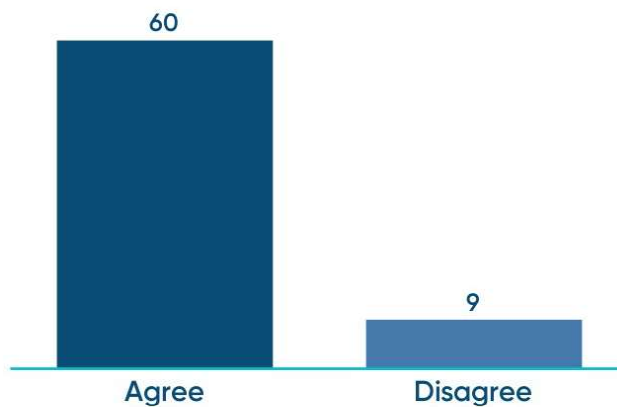

75

Many companies lack the sense of urgency.

70

It is the boss who is responsible and therefore should take the first step towards prevent exposure.

69

# ROADMAP ON CARCINOGENS

How do you score this conference (with 1 being really bad and 10 being really good)?
